HOSCA Newsletter

Lean & Green

Hosca Lean & Green would like to thank everyone who came to visit us at the Energy Show in the RDS on the 14th and 15th of April 2010. Following up on this successful event, Norman Crowley, our strategic partner from Crowley Carbon spoke to Mary Kennedy on Nationwide RTE1 at 7pm on the 16th of April 2010. Click on this link for the interview: [Nationwide](#)

For tips on energy saving and energy demand side reduction opportunities see our webpage: [Lean & Green Webpage](#)

Hosca Lean & Green would also like to draw attention to RTE's Frontline where Pat Kenny is joined by Minister for Communications, Energy and Natural Resources Eamonn Ryan and Eddie Hobbs to debate the future of Ireland's energy sources. Follow this link: [Frontline](#)

Hosca Quality Systems

Hosca is providing Nursing Homes around the country with the expertise to prepare themselves for HIQA inspections by providing them with a Quality System and Support Services.

Hosca have many years experience in implementing, documenting and auditing quality systems. You can use this experience to meet HIQA and NERA requirements. For more information visit our website at www.hosca.ie

Book Review

BELBIN

Hosca believe that more than ever companies need to use their people to best effect. Better teamwork is critical and Belbins individual and team profiles can help.

Belbin identifies and describes behaviours, situations and relationships which might otherwise be difficult to articulate. Defining team roles could spell the success or failure of a group.

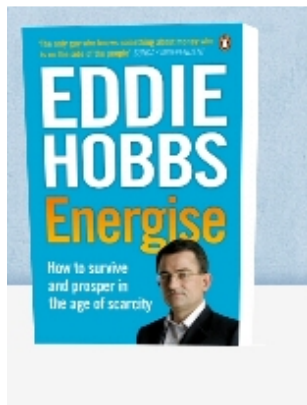

Hosca in conjunction with Belbin are recognized nationwide for providing services in the area of team profiling and enabling Management and Team members to understand how to behave more effectively in the workplace. For more information please contact Jenniwhately@hosca.ie

Book Review

Energise by Eddie Hobbs

“This highly readable book he describes it as a conversation with his readers – is a culmination of his personal research over the past few years into both the huge problem and the huge investment opportunities that the peak oil era provides.”
– The Anglo Celt

“The only guy who knows something about money who is on the side of the people.” – The Sunday Independent

Energise is about surviving and prospering in the coming age of scarcity, high inflation and peak oil. “You can act now,” writes Hobbs. “You can divest yourself of assets that will be hard hit by prolonged energy-led inflation and switch to assets that are positioned to create wealth during what will be the longest and largest commodity bull market in modern history.”

It is one of the best and jargon-free reports about this subject for ordinary people who are not sophisticated investors.
